Shipping Kits

As far as drop-off points go, most communities actually maintain a stockpile of these types of supplies, and the best way to find those locations is by dialing 2-1-1, which is the United Way resource information line.

Important Kit Assembly Information:

- All items included in kits must be NEW items.
- All emergency kits are carefully planned to make them usable in the greatest number of situations. Since strict rules often govern product entry into international countries, it is important that kits contain only the requested items—nothing more.
- Do NOT include any personal notes, money or additional materials in the kits. These things must be painstakingly removed and will delay the shipment.

Special Shipping Requirements:

Cleaning agents: All cleaning agents must be liquid and in plastic bottles. No powders. Pack them inside a bucket or strong outer box.

Aerosols or flammables: If including these types of supplies, ship kits by UPS Ground, Fed Ex Ground, or by truck. Do NOT ship by US Mail or DHL/Airborne freight.
