

The construction phase of the new home for Lutheran Campus Ministry is nearing the end! Work crews are putting the final touches on the exterior of the building and attention now turns to finishing the interior.

Construction began on Halloween Day and will come to a close around March 1st. We anticipate taking occupancy of the building near mid-March following final inspections by city and state officials.

Plans are underway for a Dedication Celebration later this spring! More information will be coming soon.

Thank you all for your support of ministry to young adults and for supporting this building project!

Shalom,

Pastor Paul Petersen
