

Sembrando para el Futuro (Sowing for the future)

is a program that ILEP, *Iglesia Luterana Evangélica Peruana*, has developed in response to the incredible need faced daily by families in Peru. With one in three families living in poverty, one in five children malnourished, and nearly half of the toddlers under three suffering anemia, the need is great.

ILEP has designed **Sembrando** to provide children with

- a healthy daily meal in a clean space
- school materials, tutoring and space for studying
- access to books and other printed materials
- safe and healthy recreational environment
- support and counseling by pastors for faith education and family dynamics
- support and family education for the children's parents

Through discussions between Bishop Arends and the ILEP Church Council, the La Crosse Area Synod Peru Subcommittee **invites you to support this ministry through monetary donations.** If you would like to offer a gift, please send it to the Synod office and indicate that it is for **Sembrando.**

¡Gracias!
